## FOREWORD

This is one of the series of Eco-labelling Criteria documents developed by SIRIM Berhad to support implementation of labelling for environmentally preferred products in Malaysia. It is noted that a need for environmental labelling service has been identified by Malaysian Industry to respond to request from both domestic and foreign purchasers. The **Eco-labelling Criteria for Fabric Care Product** contained in this document has been established by researchers from the Environment & Bioprocess Technology Centre, Research and Technology Division of SIRIM, in consultation with industry and other stakeholders. Globally established concepts for labelling and international standards have been taken into consideration in developing the criteria. Evaluation methodologies selected in the criteria document are generally adopted from international or other recognised standards.

A full listing of the references is included in the text of the criteria.

This criteria document was reviewed and recommended for adoption as an interim document by a Pro Tem Committee established by SIRIM Berhad. The criteria established will be subject to periodic review to reflect changing needs and conditions. Users and other interested parties may submit comments on the contents of this document for incorporation into future versions. As a longer term objective, the committee has proposed that the criteria be submitted for approval and publication as a Malaysian Standard through the established process.

### *Pro Tem Committee Members:*

1. Dr. Chen Sau Soon, Environment & Bioprocess Technology Centre, SIRIM Bhd.
2. Dr. Mohd Naeem Rathor, Kimia Suchi Sdn. Bhd.
3. Mr. Kevin Raj, Kimia Suchi Sdn. Bhd.
4. Ms. Loke Chooi Yen, Cosway (M) Sdn. Bhd.
5. Ms. Hiong Yee Ping, Cosway (M) Sdn. Bhd.
6. Ms. Noorazah Zolkarnain, Malaysian Palm Oil Board (MPOB)
7. Ms. Lim Mei Ning, Eng Kah Enterprise Sdn. Bhd.
8. Ms. Hasnah Mohd Zin, Environment & Bioprocess Technology Centre, SIRIM Bhd.
